

An appropriate level of First Aid competence is an essential part of operating as a Forest School practitioner. The Forest School Association (FSA) recognises and supports the provision of First Aid training that is delivered at the appropriate level, by trainers with outdoor knowledge and assessed in a fair and relevant way (Forest School Association 2016).

As part of your Level 3 Forest School Leader training, Cambridgeshire County Council deliver the 16-hour outdoor first aid to complete this requirement. You will automatically be allocated a space when you book your Level 3 training. If you do not wish to complete your outdoor first aid through Cambridgeshire County Council or the dates are not suitable, please let us know. Funding is not available for outdoor first aid training.
